ATS Project Success**

5.02 The annual report shall be prepared utilizing data from the prior school year and shall include without limitation the following information:

5.02.1 The total number of students served by the provider in Arkansas in the prior school year;

In the 2010/2011 school year, 210 students were enrolled with ATS Project Success. Of the 210 enrollments, we were unable to start services with 17 of the students because we could not contact the family to get started or we were unable to provide Internet coverage to the area. Of the 193 students that started the program, 144 students completed all of their allocated hours.

5.02.2 The name of each public school district and each public school whose students the provider served during the prior school year, and the number of students served in each district and school;
